

National Public Health Week

Did you know that in 2008, the total number of Maryland's injury-related emergency department visits, hospitalizations and deaths could fill M & T Bank Stadium eight Sunday afternoons? These injuries resulted in over \$1 billion in hospital charges. For that amount of money, every person in Maryland could have received a check for \$185.00!

The Governor has declared April 4-10 as Public Health Week in Maryland. The Center for Health Promotion and Education has planned a week of injury prevention programs, demonstrations and educational opportunities. Please see below for more information.
